Professional Provider Fee Schedule

Effective 7/1/05

Last revised 6/28/05

The procedure codes and maximum allowances in this document do not necessarily indicate coverage or payment. All coverage and payments are subject to plan benefits, exclusions, limitations, and pre-authorization requirements. Please refer to the Uniform Medical Plan (UMP) *Billing and Administrative Manual for Professional Providers* and *Certificate of Coverage.*

The descriptions for the Current Procedural Terminology (CPT™) and Centers for Medicare & Medicaid Services' (CMS') Healthcare Common Procedure Coding System (HCPCS) level II codes listed here are abbreviated. For billing purposes, please use the most recent edition of the CPT™ and HCPCS level II coding books which include complete descriptions of the codes.

Visit the UMP web site at www.ump.hca.wa.gov to download the latest versions of this fee schedule, and all other UMP publications mentioned in this document.

Fees in this publication are subject to change without notice. Although we make every effort to ensure the accuracy of the fees in our publications, changes or corrections may occur throughout the year.

UMP Professional Provider Fee Schedule Introduction

The Uniform Medical Plan (UMP) July 1, 2005 *Professional Provider Fee Schedule* contains the maximum allowances used to reimburse professional services. The maximum allowances in this document do not reflect the payment differentials that apply to certain provider types. Please refer to the UMP *Billing and Administrative Manual for Professional Providers* for details of the affected provider types and the specific differentials.

The majority of the fee schedule is based on the Resource Based Relative Value Scale (RBRVS) methodology. The RBRVS maximum allowances are calculated using the Centers for Medicare & Medicaid Services (CMS) 2005 relative value units (RVUs); CMS 2005 statewide Geographic Practice Cost Indices (GPCIs) for Washington state; and the UMP conversion factor of $50.00.

The CMS 2005 RVUs were published in the November 15, 2004 *Federal Register* (Vol. 69, No. 219) and are also available on CMS' web site at cms.hhs.gov. The statewide GPCIs are: '1.003 (work), 1.017 (practice), and 0.819 (malpractice).

The RBRVS maximum allowances are determined by the following formula:

[(work RVU x work GPCI) + (practice expense RVU x practice expense GPCI) +
(malpractice expense RVU x malpractice expense GPCI)] x UMP RBRVS conversion factor

UMP's maximum allowances for the clinical laboratory codes, with the exception of Pap smears, are set at 136.5% of Medicare's 2005 *Clinical Diagnostic Laboratory Fee Schedule*. The rates for Pap smears are equal to Medicare's 2005 amounts. The UMP maximum allowances for prosthetics and orthotics, including ostomy and urologicals, are primarily based on Medicare's 2005 *Durable Medical Equipment, Prosthetics, Orthotics, and Supplies Fee Schedule.*

UMP's site of service payment differential for professional claims is based on the CMS dual practice expense RVUs and accompanying policy. The UMP fee schedule includes non-facility setting maximum allowances and facility setting maximum allowances. The **non-facility** setting maximum allowances apply to professional claims performed in all settings, with the exception of ambulances, ambulatory surgery centers, licensed birthing centers, hospice facilities, community mental health centers, hospitals, military facilities, Indian health facilities, Tribal facilities, and skilled nursing facilities. In these settings, the **facility** setting maximum allowances are applicable.

Following Medicare's consolidated billing requirements, the UMP does not make a separate payment to the performing provider for therapies (such as physical therapy, occupational therapy, and speech therapy) provided in hospitals or skilled nursing facilities. In these settings, the facilities must submit a consolidated bill for the therapies provided. Since a single payment is issued to the facility only, UMP reimbursement for the therapies to the facilities is based on the non-facility setting maximum allowable fees.

Note: The applicable CMS 2-digit place of service code must be included on all professional claims submitted to UMP for payment consideration. The valid place of service codes are included in the UMP *Billing and Administrative Manual for Professional Providers.*

The global day periods associated with the global surgery rules payment policy addressed in the billing manual are included on the fee schedule. This includes: 90-day postoperative periods for major procedures; 0- or 10-day postoperative periods for minor surgeries and endoscopies; 45-day postoperative periods for maternity procedures; XXX for procedures where the global concept does not apply; and ZZZ for procedures where the global period is included in the global period of another procedure.

The UMP fee schedule uses Current Procedural Terminology (CPT™) and Healthcare Common Procedure Coding System (HCPCS). The descriptions for the CPT™ and HCPCS level II codes listed are abbreviated. For billing purposes, please use the most recent edition of the CPT™ and HCPCS level II coding books, which include complete descriptions of the codes.

Visit the UMP web site at www.ump.hca.wa.gov to download copies of all UMP publications mentioned in this document. If you have any questions, please call (206) 521-2023 (within the Seattle area) or toll free at 1-800-292-8092.

Reimbursement for Clinical Laboratory Procedures
Including Automated Multichannel Laboratory Tests
Effective July 1, 2005

The Uniform Medical Plan (UMP) Professional Provider Fee Schedule amounts for clinical laboratory procedure codes are 136.5% of the 2005 *Medicare Clinical Diagnostic Laboratory Fee Schedule,* with a few exceptions.

Please note the following important information related to automated multichannel laboratory tests:

The automated multichannel laboratory codes 80002-80019 and G0058-G0060 were deleted from Current Procedural Terminology (CPT™) and Healthcare Common Procedure Coding System (HCPCS) books in 1998. As a result, the codes are not valid and are not accepted on UMP claims. Providers may bill the *individual* automated multichannel test CPT™ codes or the organ and disease oriented panel CPT™ code(s) if all component tests within the panel code are performed.

Payment for the automated multichannel laboratory tests is determined as follows:

> When all automated multichannel laboratory component tests of an organ and disease panel CPT™ code are billed separately, UMP bundles the individual codes to the appropriate organ and disease oriented panel CPT™ code for payment.
>
> All other automated multichannel laboratory tests billed are paid according to the total number of automated multichannel laboratory tests performed. The UMP fee for the total number of tests performed will be distributed among the individual codes billed so that the total allowed charge does not exceed the UMP maximum allowable fee.

A listing of the automated multichannel laboratory tests and the organ and disease panel CPT™ codes (including the components) with the rates described above are identified on the next page. The descriptions for the CPT™ codes listed in the tables are abbreviated. For billing purposes, please utilize the most recent edition of the CPT™ and HCPCS Level II coding books which include complete descriptions of the codes.

CDT-4 Dental Procedure Codes

Dental procedure codes (D0000-D9999) included in HCPCS publications are not listed in the fee schedule as they are copyright American Dental Association. Furthermore, dental care other than the specific covered dental services identified in the *UMP Certificate of Coverage* are not covered.

CPT™ Category II Procedure Codes

The following CPT™ Category II Codes are supplemental tracking codes intended for performance measurement. Use of these codes is optional; they are not required for correct coding. Although the Category II codes will be accepted and processed as informational only, these codes are not eligible for payment by UMP.

Visit www.ama-assn.org/go/cpt for the most current list of CPT™ Category II Codes.

UMP Fee Schedule Amounts for E&M Services Provided During Preventive Care Visits

Separate payment is allowed for a medical evaluation & management (E&M) service when an abnormality is encountered or a preexisting problem is addressed during a preventive care visit. In these situations, the problem/abnormality must be significant enough to require additional work to perform the key components of a problem-oriented E&M service and the E&M code must be reported with modifier 25. In all other circumstances, UMP considers E&M services to be included in the fee for the preventive medicine E&M service code.

The UMP fee schedule amounts for covered medical E&M services provided during a preventive care visit are included below:

CPT™ Code	Mod	Brief Description	UMP Fee Schedule Amounts for Covered E&M Services Provided During Preventive Care Visits Effective 7/1/05*
